

NAISA

Your people. Your Partnership.

Membership Brochure

NAISA is a membership organisation for non-association independent schools. Our vision, mission and aims reflect our commitment to understanding context, strengthening practice and supporting schools at every stage of their journey.

VISION

A connected and confident community of non-association independent schools where leaders are supported, represented and never isolated, and where schools are empowered to deliver the best possible outcomes for their pupils.

MISSION

NAISA exists to support and represent non-association independent schools. We reduce isolation, strengthen practice and provide a collective voice for schools operating outside association structures - offering practical support, trusted networks and representation, without the need to explain context.

OUR AIMS

Support leaders with practical, timely guidance tailored to the realities of non-association independent schools

Reduce isolation by creating trusted spaces for connection, peer support and shared learning

Strengthen confidence, compliance and inspection readiness through shared expertise and resources

Represent and amplify the voice of non-association independent schools in national policy and regulatory discussions

Encourage collaboration that improves sustainability, leadership wellbeing and outcomes for pupils

UNDERSTANDING

We start from the lived reality of non-association independent schools. No assumptions. No need to explain.

FELLOWSHIP

We believe schools are stronger together, sharing expertise, resources and solutions to common challenges.

INTEGRITY

Clear, credible and proportionate guidance, grounded in real experience and focused on high-quality practice.

CARE

We value the wellbeing of school communities and those who lead them, recognising the human impact of this work.
